Judge:

As the wife of a high-tech executive - and as someone who myself has been involved in the industry for years - it is clear to me that PFJ that the DOJ is proposing is ludicrous. Why should we trust a company that has been repeatedly convicted of abusing its monopoly position?

I ask you to look very, very carefully at the PFJ and at the findings of all the courts that have reviewed this case to date. I think you will find that the PFJ is completely inadequate in the face of the consistent findings of the trial courts...and the consistent pattern of abuse that MS has clearly demonstrated over the past 20 years.

Sincerely,

Marina Slayton
